

Customer Complaint Record

Customer Name: Arjun Malhotra

Email: arjun.malhotra@example.com

Phone Number: +91-9988776655

Product/Service: CloudBackup Pro - Monthly Plan

Complaint Description:

My scheduled cloud backups have failed silently for the past 10 days. I only noticed when I tried to restore a file and found the latest backup was 2 weeks old. I rely on this service for critical business documents and this is a serious reliability concern.

Resolution Provided:

None so far. Ticket #61042 was raised 2 days ago; engineering team is investigating a suspected bug in the scheduler for monthly-plan accounts. No ETA has been given yet.

Escalation Information:

Case flagged internally as high priority due to data-loss risk and assigned to the engineering escalation queue.

Supporting Information:

Customer attached backup failure logs exported from the app (log_export_61042.csv) to the support ticket.
